

Why automate Expense Management?

of all business travelers spend more than 60 minutes a month on their travel expenses.

of all employees regularly lose receipts.

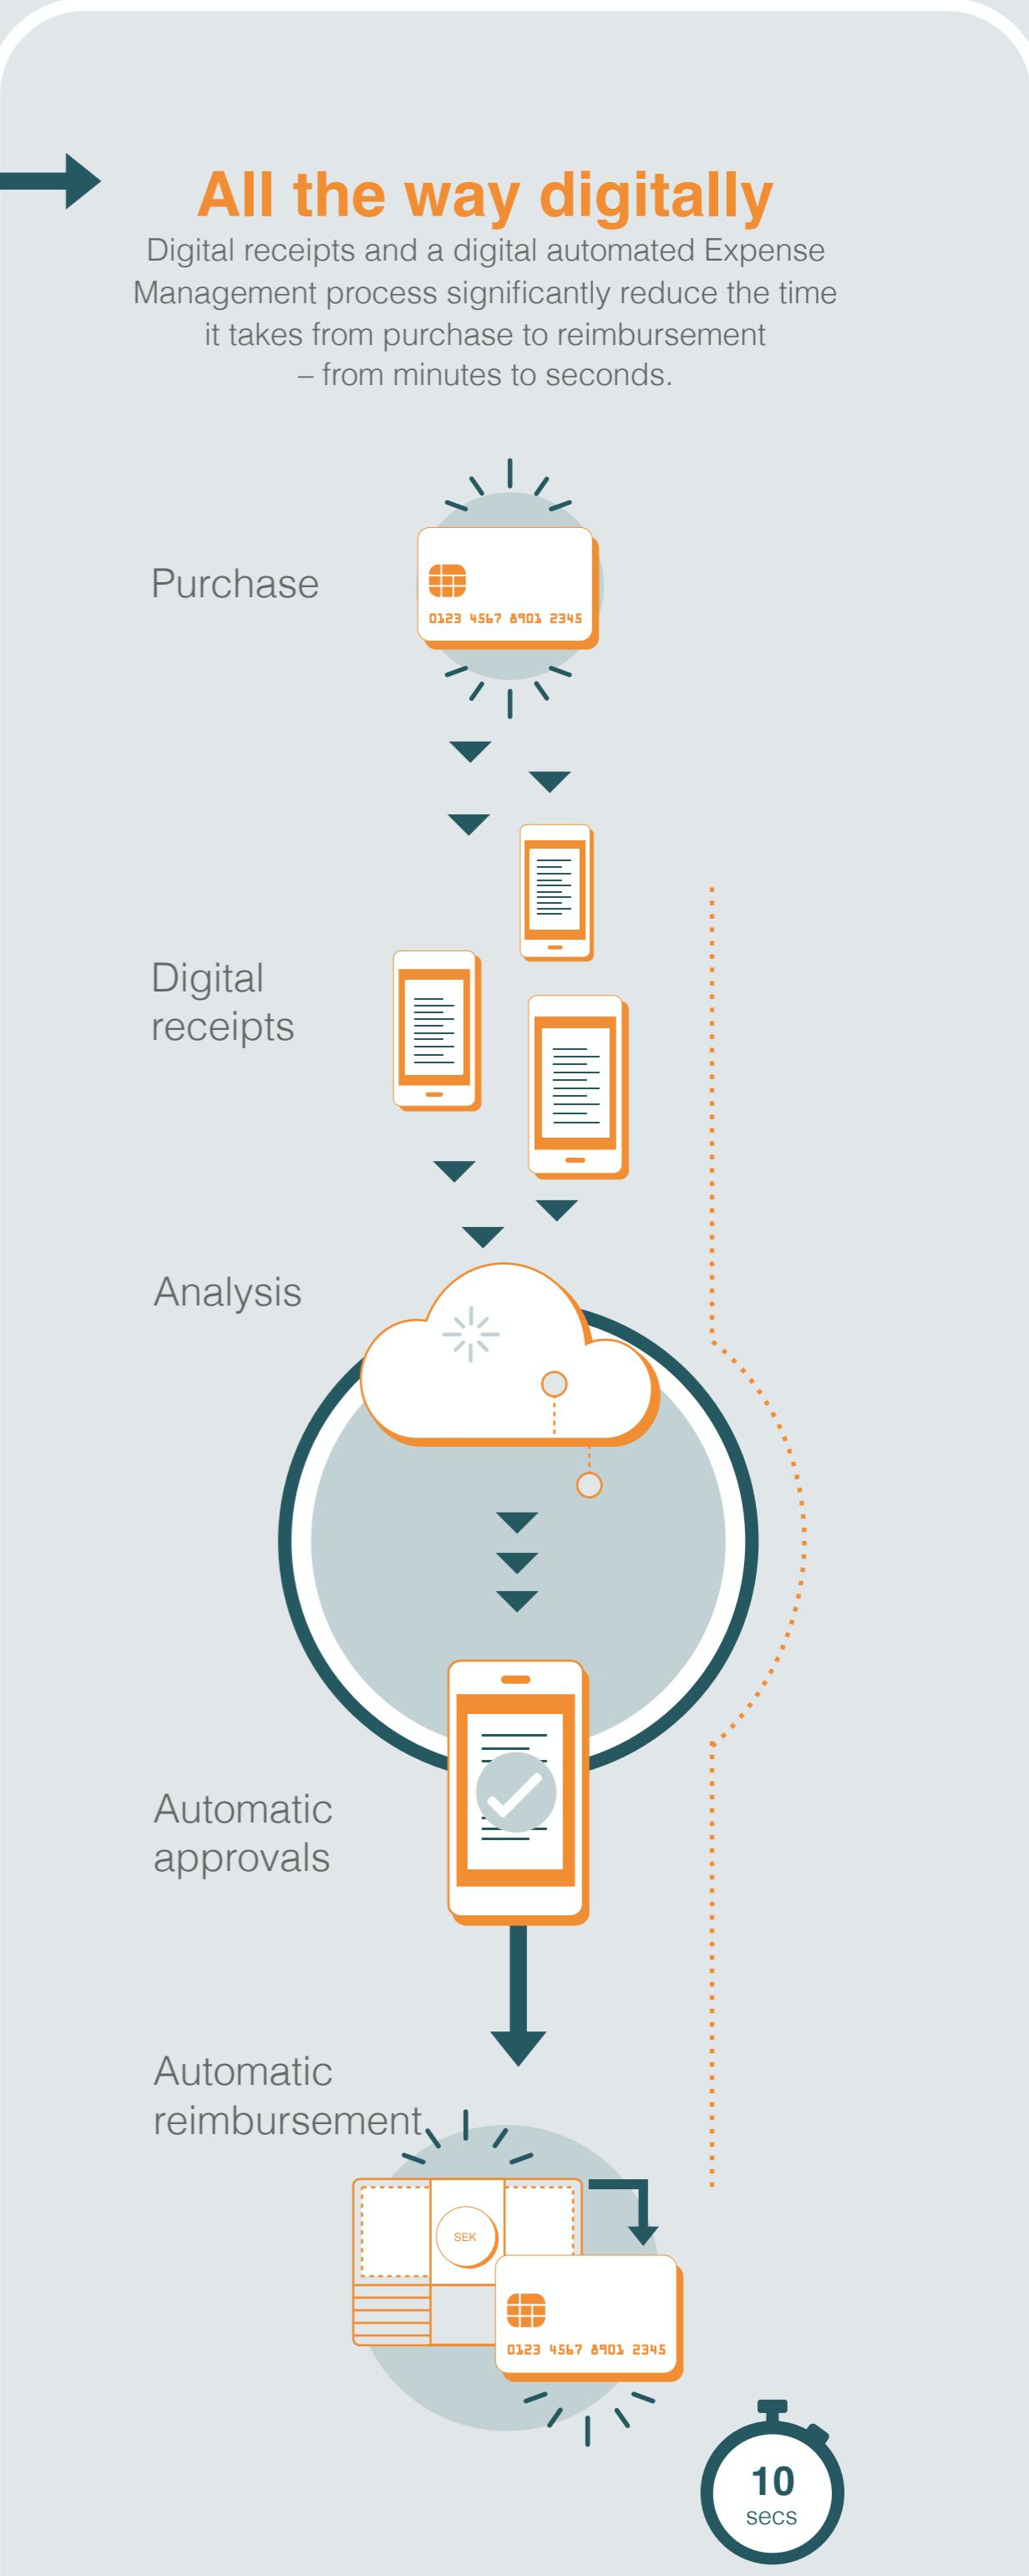

still use a completely manual process.

4 billion receipts in Sweden every year
200 million are business purchases

The benefits of a digital automated process

- Seamless**
NO MORE LOST RECEIPTS
 With a digital service, it is easy to report an expense as you pay for it, no matter what the type of receipt you get. No more searching for receipts at the end of the month.
- Easy**
SIMPLER ADMINISTRATION
 Everything in one place – expenses, per diems, mileage, and company credit cards. Report and approve anytime and anywhere.
- Correct**
COMPLETE & CODED
 No need to train employees, the service guides them through the process. Your finance team receives all the documentation coded and checked.
- Reliable**
CONTROL & AUDIT
 Your business gets better control and auditing, which means fewer errors and less fraud. Your reimbursement and per diem policy is automatically complied with - no need for manual review.
- Fast**
COST EFFICIENT
 A digital service dramatically reduces the time needed for Expense Management. By reporting everything directly on their phones, employees can save up to 85% of the time it used to take them.

For companies, an automated and digital Expense Management process can mean huge savings in time and money.

Using a manual process, most employees spend an hour a month managing their receipts and expenses.
